

Low Mill inspired tasks

So, we are very conscious that this week Year 5 would have been setting off for Low Mill and, with that in mind, we have decided that in addition to your daily Maths and English, we would set you some fun Low Mill inspired tasks that reflect some of the activities you would have done whilst away.

If you're on Seesaw then **next week** we will be asking to see your pictures of what you got up to, so remember to save uploading them until w/c 27.04.20

Activity 1 - Caving	Activity 2 - Canoeing
<p>Can you make a caving system out of cardboard boxes or paper? https://www.instructables.com/id/A-Life-Size-Paper-Cave/ If you manage to build a cave system, see if you can wiggle through it without knocking it over, just like the worm holes in the caves near Low Mill.</p>	<p>Can you design a boat or a raft that would stay afloat in a bowl of water? https://www.craftprojectideas.com/craft-stick-raft/ Maybe you could time how long it stays afloat for? Or if other members of your family want to get involved, you could have a boat race - who wins?</p>
Activity 3 - Abseiling	Activity 4 - Gorge-Walking
<p>This challenge is a tricky one - it's called forced perspective photography! Miss Dunn has had a go at it and we'll share the photo next week on Seesaw. Can you take a photo of yourself 'pretend' abseiling without leaving the ground. Make it look as realistic as possible! We've taken inspiration from this amazing ski video, all filmed on the floor! https://www.youtube.com/watch?v=HrIVWziJOY</p>	<p>Can you have a go at drawing a 3D gorge? There's a youtube clip here to help you. Maybe you could add a waterfall to yours, just like the one at the gorge near Low Mill https://www.youtube.com/watch?v=gYhz0r3iYIU Alternatively, if you don't like drawing, maybe you could design a river or gorge system for a toy to walk through - maybe create a stop motion video of it?</p>
Evening Activity - Orienteering	Optional Night Activity - Sibling Sleepover
<p>Using the map of Dunnington attached - or one of your own, can you design and plan your 'daily exercise' walk for your family. Then, if you are able to, take your family out to walk your route, making sure you lead the way and remembering to stay safe and observe the 2m social distancing rule!</p>	<p>If you have a sibling and your parents are happy for you to do this, maybe you could have a sleepover in the same room one night? Or maybe you could make a den, or put up a tent and camp together. And don't forget that we usually have a hot chocolate before bed at Low Mill too and maybe the odd sweet!</p>
