

Science tasks and fun!

Here is a list of exciting and interesting scientific challenges you can try out at home. Enjoy!

1. Take a few Skittles or Smarties sweets and place them in the centre of a saucer. Place a few drops of water on the top of them and see what happens? Can you draw what you found out?
2. Place Haribo style gummy bears in different solutions overnight and see what happens to them. You could try saltwater, sugar solution, vinegar. Be experimental and if you can, weigh them before and after!
3. Mix Diet Coke and Mentos together in a plastic bottle....make you stand back well back to watch the explosion. What causes this explosion?
4. Follow this link to learn how to make a storm in a glass.
