Year 2 Week commencing 23rd March 2020

Here are a few ideas for work for the above week.

Literacy

Spring Poetry

There are some rhyming word activity sheets to complete and a wordsearch to broaden vocabulary.

This will enable children to see that rhyming words come at the end of a line.

We have also put on a poem example to show you what we would like the end result to be like.

Please could your child have a go at writing their own spring poem using the Spring Poem Writing Frame.

Maths

Children are moving onto position and movement.

We have included worksheets, powerpoints true and false questions all to do with describing turns and movements.

All powerpoints and worksheets are closely linked and very easy to follow. There is also an answer sheet to the worksheets.

Times tables rockstars.

Science

Your child has planted a pea or bean at school and they are writing a Diary of a Bean Plant. They will bring home their bean on Friday and can you continue to grow these at home. They can then fill in the diary as an ongoing project which you will find in the ongoing project page on the website.

Computing

Carry on with coding from where children are. https://studio.code.org/courses - either course 1 or

2, your child will know which they are on.

Enrichment tasks

Ongoing. Please see Spring 2 homework.

Mr Gargiulo and Mrs Abbott
