Coding

Here are an assortment of activities relating to our previous unit on coding. It is up to you if you complete all or some of these:

1. You may have your Studio Code login details at home, in which case you can log on and find where you were last up to! https://studio.code.org/users/sign_in
Don't worry if not, as there are many at home resources on their website which don't require signing in: <https://code.org/athome>
2. Try this fun dance activity: <https://code.org/dance>. Why not share the link on Seesaw with us once done? Here is my example...
<https://studio.code.org/projects/dance/WFtSqdWGyd0d29ieoNcY7WZncEWTdcrZfiBNdxDArd0>
3. You can also pop onto the Scratch website to try a few activities:
