

MATHS

w/c 22nd June 2020

Our Maths work this week can still be found on the Home learning pages by White Rose Maths and BBC Bitesize; however, as we have already covered some of the White Rose Week 9 content on decimals earlier in the lockdown period, **we are following alternative lessons**. Lessons 1 and 2 are the alternative lessons for Week 9 and then Lessons 3 and 4 this week have been taken from lessons previously set on White Rose Week 3 whilst we finished decimals back in April! All of the video links are on this sheet so you have access to both the teaching videos plus tasks (uploaded onto website).

We are still recapping and consolidating your Year 5 knowledge of topics already completed in order to help you feel secure in these areas. And of course, you can still go and use the linked resources on BBC Bitesize to give yourself more practice on other areas if you wish to by clicking onto:

<https://www.bbc.co.uk/bitesize/dailylessons>.

This week try to complete the following lessons (video links below):

- Read and interpret tables <https://vimeo.com/430336159>
- Two way tables <https://vimeo.com/430336386>
- Multiply 4 digits by 2 digits <https://vimeo.com/413579403>
- Divide with remainders <https://vimeo.com/413577975>

Just like in previous weeks, you will find an accompanying worksheet and answers are again provided should your parents wish to work through it with you - do make sure you only use these after completing the work! Remember, you do not need to print the worksheets, you can just answer the questions in your exercise books. Maybe take a picture of the sheet to work from in case everyone is trying to use the same computer.

If you want to, have a go at the White Rose Friday Challenge, which will also be available on:

<https://whiterosemaths.com/homelearning/year-5/>

Do remember that the most suitable questions for Year 5 are Challenges 1 to 5 but feel free to see how high you can go! They are great for challenging your thinking and improving your reasoning and problem solving skills.

Mrs Elliott and Miss Dunn
