<p>Contact Between Individuals Not Minimised and Social Distancing Measures Not Followed</p>				
<p>Consistent groups are in place which reduces the risk of transmission by limiting the number of pupils and staff in contact with each other to only those within the group</p>	<p>Most staff will be allocated to one bubble but where staff need to work with more than one bubble, staff are encouraged to maximise distances, wherever possible.</p> <p>Consistent groups of pupils will be organised as follows: Reception- 29 pupils (1 class) (CG, LM, ES, LR) Year 1- 22 pupils (1 class) (LJ, AB JL) Year 2- 34 pupils (2 classes) (DA, LR, AG, AB) Year 3- 34 pupils (1 class) (SJ, CT, ES EC, JP) Year 4- 29 pupils (1 class) (KP, ES, ED, LR) Year 5- 33 pupils (1 class) (TE, HE, JL, ES) Year 6- 39 pupils (2 classes) (RD, JD, JL,LR)</p>	☒	☐	☐

Primary schools may be able to implement groups that are the size of a full class. If that can be achieved, it is recommended, as this will help to reduce the number of people who could be asked to isolate should someone in the group become ill with coronavirus (COVID-19).	<p>In order to manage the logistics of PPA cover, staggered breaks and staff breaks within the resources available, pupils have been organised into year groups.</p> <p>Circumstances need to be assessed and if class-sized groups are not compatible with offering a full range of subjects or managing the practical logistics within and around school, you can look to implement year group sized bubbles.</p> <p>There will be 1 discrete class in each year group except in Y2 and Y6. In these year groups they will be separated into two teaching groups for most of the school week but will share playtimes and some lessons.</p> <p>Reception- 29 pupils (1 class) Year 1- 22 pupils (1 class) Year 2- 34 pupils (2 classes) Year 3- 34 pupils (1 class) Year 4- 29 pupils (1 class) Year 5- 33 pupils (1 class) Year 6- 39 pupils (2 classes)</p>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
In the younger years in Secondary Schools (key stage 3), schools may be able to implement groups that are the size of a full class. In Secondary Schools, and certainly in the older age groups at key stage 4 and key stage 5, the groups are likely to need to be the size of a year group to enable schools to deliver the full range of curriculum subjects and students to receive specialist teaching. <p>Inadequate Ventilation</p>				
<p>Occupied spaces must always be well ventilated and a comfortable teaching environment maintained</p>	<p>This can be achieved by a variety of measures including:</p> <p>mechanical ventilation systems – these should be adjusted to increase the ventilation rate wherever possible, and checked to confirm that normal operation meets current guidance (if possible, systems should be adjusted to full fresh air or, if not, then systems should be operated as normal as long as they are within a single room and supplemented by an outdoor air supply)</p> <p>Windows and external doors to be opened by site staff every morning and closed every night following final clean.</p>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<p>Ventilate spaces with outdoor air</p>	<p>natural ventilation – if necessary external opening doors may also be used provided this doesn't compromise safeguarding measures</p> <p>Windows and external doors to be opened by site staff every morning and closed every night following final clean.</p>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Where possible, occupied room windows should be open.	Staff and children advised to wear multiple layers Staff briefing 7 th September 2020 Parent Information Letter 8/9/2020	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Keep toilet ventilation in operation as much as possible while building is occupied	Toilet windows to be opened by site staff every morning and closed every night following final clean.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Switch air handling units with recirculation to 100% outdoor air where this is not possible, systems are operated as normal	Further advice on this can be found in Health and Safety Executive guidance on air conditioning and ventilation during the coronavirus outbreak and CIBSE coronavirus (COVID-19) advice	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Prop doors open, where safe to do so (bearing in mind fire safety and safeguarding), to limit use of door handles and assist with creating a throughput of air	Fire doors must not be propped open unless they have a self-closing hold open device fitted Additional door wedges provided for classroom doors	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
In cold weather where the school heating system is activated, windows are open to provide trickle ventilation rather than being fully open	natural ventilation – opening windows (in cooler weather windows should be opened just enough to provide constant background ventilation, and opened more fully during breaks to purge the air in the space) Staff briefing 10 th November 2020	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Consideration given to opening high level windows in preference to low level to reduce draughts		<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Consideration given to only opening every other window instead of all windows when the heating is activated		<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
The school offers flexibility to allow additional, suitable indoor clothing	For more information see School uniform Parent newsletter to explain situation on 25 th September 2020 and Parent Welcome Zoom Meetings	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Heating should be used as necessary to ensure comfort levels are maintained		<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

particularly in occupied spaces				
When heating is activated and windows are on trickle vent, consideration is given to employing desk fans to move any stagnant pockets of air	Desk fans are pointed away from people and pointed at walls etc.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
If school needs to use additional heaters they only use sealed, oil filled electric heaters	Electric fan heaters used sparingly due to increased fire and electrical risk	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Arrangements for Boarding Schools During Pandemic				
Where pupils travel from abroad to attend boarding schools, the school needs to plan for their collection and transfer from their point of arrival	Schools need to have plans in place for the collection and transfer of these pupils to school, which need to be explained to pupils and their parents before they travel. Advice to help schools, pupils and parents is provided in residential settings with international students guidance and in how to self-isolate when traveling to the UK guidance	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Where they have travelled from, or have stopped at, a country or territory that is not on the travel corridors list , pupils will be required to self-isolate for 14 days from the day they leave a non-exempt country or territory to travel to the UK	Where suitable, pupils can self-isolate at their boarding school	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Boarding pupils can be in one group residentially and another during the school day		<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
It is accepted that boarding pupils will mix during sociable time		<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
If a child in a boarding school shows symptoms, they should initially self-isolate in their residential setting household. Most children will benefit	guidance on isolation for residential educational settings.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

from self-isolating in their boarding house so that their usual support can continue. Others will benefit more from self-isolating in their family home
